MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

Dear Farm Credit Customer:

I offer you the following comments:

Agricultural Conditions: We all know that agriculture involves lots of uncertainty and related ups and downs. This was evident in 2020. Between the COVID-19 pandemic, a late spring, unpredictable weather, and uncertain economic conditions, much of 2020 presented us with significant uncertainty. Nevertheless, as the year progressed we experienced mostly favorable yields, improving crop prices, and notable government programs (PPP, WHIP+, CFAP, and CFAP2). As such, I believe we have increased economic optimism heading into 2021. Regardless of these inevitable agricultural ups and downs, Farm Credit always stands ready to diligently **finance**, **insure**, and **serve** the ag producers across northwest and north central North Dakota.

Association Conditions: Farm Credit Services of North Dakota is in a strong financial position. We achieved sufficient earnings, have a very strong capital position, and maintained good credit quality. We have built this financial strength, in partnership with you, so that we can continue to reliably serve you and other farmers and ranchers across our region in both good and bad times.

Ca\$h Dividend\$: I believe our new **Ca\$h Dividend\$ patronage program is the most exciting and significant development in 2020!** This major all-new, additional customer benefit should put material amounts of cash into our borrowers' pockets for years and years to come. We will not increase interest rates because of implementing this program. We have the capital strength to fully support this initiative. I want to emphasize that our strategic direction includes maintaining the lowest possible interest rates PLUS paying patronage **Ca\$h Dividend\$**. Our first **Ca\$h Dividend\$** patronage payments, totaling \$4.3 million, are targeted for distribution in March 2021.

Our mission/purpose is "to support the aspirations and vitality of agriculture and rural communities." We continually strive to be an invaluable partner and trusted advisor. Thank you for your business in 2020! We very much look forward to continuing to serve your credit and crop insurance needs in 2021 and beyond. We are here for you!

Serving our customer-stockholders,

Gordon D. Hanson
President and Chief Executive Officer
Farm Credit Services of North Dakota, ACA

March 3, 2021

CONSOLIDATED FIVE-YEAR SUMMARY OF SELECTED FINANCIAL DATA

Farm Credit Services of North Dakota, ACA

(dollars in thousands)

As of December 31	2020	2019	2018	2017	2016
Statement of Condition Data					
Loans	\$ 1,336,241	\$ 1,273,012	\$ 1,222,541	\$ 1,198,827	\$ 1,153,046

Capital ratios effective prior to 2017:					
Permanent capital ratio	N/A	N/A	N/A	N/A	16.9%
Total surplus ratio	N/A	N/A	N/A	N/A	16.7%
Core surplus ratio	N/A	N/A	N/A	N/A	16.7%
Net Income Distributed					
For the Year					
Patronage distributions payable to members	\$ 4,325	\$ --	\$ --	\$ --	\$ --

No income was distributed to members in the form of cash patronage, dividends, stock, or allocated surplus during the five years presented. However, we accrued patronage in 2020 and expect it to be paid in cash in the first quarter of 2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Farm Credit Services of North Dakota, ACA

The following commentary reviews the consolidated financial condition and consolidated results of operations of Farm Credit Services of North Dakota, ACA (the Association) and its subsidiaries, Farm Credit Services of North Dakota, FLCA and Farm Credit Services of North Dakota, PCA and provides additional specific information. The accompanying Consolidated Financial Statements and Notes to the Consolidated Financial Statements also contain important information about our financial condition and results of operations.

The Farm Credit System (System) is a federally chartered network of borrower-owned lending institutions comprised of cooperatives and related service organizations, established by Congress to meet the credit needs of American agriculture. As of January 1, 2021, the System consisted of three Farm Credit Banks, one Agricultural Credit Bank, and 67 borrower-owned cooperative lending institutions (associations). The System serves all 50 states, Washington D.C., and Puerto Rico. This network of financial cooperatives is owned and governed by the rural customers the System serves.

AgriBank, FCB (AgriBank), a System Farm Credit Bank, and its District associations are collectively referred to as the AgriBank Farm Credit District (AgriBank District or the District). We are an association in the District.

The Farm Credit Administration (FCA) is authorized by Congress to regulate the System. The Farm Credit System Insurance Corporation (FCSIC) administers the Farm Credit Insurance Fund (Insurance Fund). The Insurance Fund is used to ensure the timely payment of principal and interest on Systemwide debt obligations, to ensure the retirement of protected borrower capital at par or stated value, and for other specified purposes.

Due to the nature of our financial relationship with AgriBank, the financial condition and results of operations of AgriBank materially impact our members' investment. To request free copies of AgriBank financial reports, contact us at:

Our Annual Report is available on our website no later than 75 days after the end of the calendar year and members are provided a copy of such report no later than 90 days after the end of the calendar year. The Quarterly Reports are available on our website no later than 40 days after the end of each calendar quarter. To request free copies of our Annual or Quarterly Reports, contact us as stated above.

FORWARD-LOOKING INFORMATION

This Annual Report includes forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. Words such as "anticipate", "believe", "estimate", "may", "expect", "intend", "outlook", and similar expressions are used to identify such forward-looking statements. These statements reflect our current views with respect to future events. However, actual results may differ materially from our expectations due to a number of risks and uncertainties which may be beyond our control. These risks and uncertainties include, but are not limited to:

- Political (including trade and environmental policies), legal, regulatory, financial markets, and economic conditions and developments in the United States (U.S.) and abroad
- Length and severity of an epidemic or pandemic
- Economic fluctuations in the agricultural, international, rural and farm-related business sectors
- Weather-related, disease, and other adverse climatic or biological conditions that periodically occur and can impact agricultural productivity and income
- Changes in U.S. government support of the agricultural industry (including government support payments) and the System as a government-sponsored enterprise, as well as investor and rating agency reactions to events involving the U.S. government, other government-sponsored enterprises, and other financial institutions
- Actions taken by the Federal Reserve System in implementing monetary policy
- Credit, interest rate, and liquidity risks inherent in our lending activities
- Changes in our assumptions for determining the allowance for loan losses and fair value measurements
- Industry outlooks for agricultural conditions
- Changes in interest rate indices utilized in our lending

COVID-19 PANDEMIC

The spread of COVID-19 has created a global public-health crisis that has stifled the world-wide economy, decreased liquidity in fixed income and equity markets, significantly increased unemployment levels and disrupted global supply and demand chains. Unprecedented actions taken by governments, businesses and individuals to slow or contain the spread of COVID-19, including quarantines, stay-at-home orders, school closings and travel bans that have substantially restricted daily activities and forced many businesses to curtail or cease operations. The impact of COVID-19 on companies is evolving rapidly and its future effects are uncertain.

The extent to which the COVID-19 pandemic impacts the Association will depend on future developments that are uncertain and cannot be predicted such as the duration, extent and severity of the pandemic, the continued response by the U.S. government and how quickly "normal" daily activities resume.

Despite volatility and uncertainty in the market, we weathered the significant initial challenges presented by the operating environment and operations of our Association are fully functioning. All staff are working from the office with the exception of those staff designated for permanent home offices. All of our office locations are open to customers and the public. We are following the guidelines set by the North Dakota Department of Health. We continue to emphasize recommended safety protocols for staff and customers. The COVID-19 situation in our territory is continuously monitored and we will respond appropriately if changing circumstances warrant it. Our business continuity response and the ability to effectively utilize a remote work environment, when required, allows us to be able to maintain the health of our employees without loss of key functions due to illness and continue to serve our mission.

This outbreak puts the economy and agriculture sector in uncharted territory. The overall impact of COVID-19 on U.S. agriculture will depend on the severity and duration of the outbreak. Overall, agriculture should adjust, providing an "essential service" to the U.S. and global consumer.

AGRICULTURAL AND ECONOMIC CONDITIONS

The majority of the 17-county trade area experienced adequate growing conditions in 2020. Prevent plant acres were higher in some areas due to the excess moisture experienced in 2019 that resulted in harvesting of crops into the 2020 spring. These areas remained wet through planting time. Drought conditions then prevailed after planting was completed in most of the area; however, many crops were rated average at that time. Timely rains in mid-summer provided enough moisture to get most crops to harvest. An early frost did not have as much of a dramatic effect on late season row crops as initially suspected, although there were areas that were impacted. With harvest now complete, yields and grain quality in most areas were above projected levels and the early debt servicing reports indicate a majority of producers will be able to meet repayment capacity.

The recent rally in commodity prices has given customers opportunities to lock in prices at or above breakeven levels. These prices plus the additional government payments should help customers meet all obligations. The COVID-19 virus has created additional uncertainty. At this time there does not appear to be any issues with customers getting their commodities or supplies delivered, but this may cause issues in the future. The livestock producers in our area had ample grass this year. Hay production was average as well. The prices for livestock have declined below projected levels but with government payments, producers should generally be able to meet their projected income levels.

The demand for real estate has remained strong; however, prices appear to have leveled off. The low interest rates will modestly help lower producer's expenses. The local economy has slowed due to COVID-19 and the drop in oil prices. In recent years, oil activity has provided off farm employment opportunities and other nonfarm income in the territory. The lower oil prices should reduce producer's expenses, but it may also negatively impact some producers in our territory.

The overall profitability of our producers has been challenged in recent years, but with the recent increase in commodity prices and additional government payments, nearly all producers should remain viable, obtain financing, and continue operating their farm and/or ranch.

LOAN PORTFOLIO

Loan Portfolio

Total loans were \$1.3 billion at December 31, 2020, an increase of \$63.2 million from December 31, 2019.

Components of Loans

(in thousands)

As of December 31	2020	2019	2018
Accrual loans:			
Real estate mortgage	\$ 453,673	\$ 441,927	\$ 449,089
Production and intermediate-term	426,399	433,984	441,641
Agribusiness	300,735	259,226	210,305
Other	151,636	130,092	112,989
Nonaccrual loans	3,798	7,783	8,517
Total loans	\$ 1,336,241	\$ 1,273,012	\$ 1,222,541

The other category is primarily composed of rural infrastructure related loans.

The increase in total loans from December 31, 2019, was due primarily to growth in participation volume through our alliance with AgCountry CFG and local participations in agribusinesses. Our traditional production and intermediate-term and real estate mortgage loan volume declined slightly due in part to producers limiting capital purchases and expansions due to the tighter farm economy. Producers received additional government payments at a higher rate in 2020 and commodity prices improved in late 2020, contributing to higher than expected repayment on production loans.

We have sold to AgriBank participation interests in certain loans as part of a pool program. The total outstanding participation interests in this program were \$55.8 million, \$52.2 million, and \$49.1 million at December 31, 2020, 2019, and 2018, respectively.

The U.S. government has instituted various programs in support of the COVID-19 economic recovery. In early 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act). Among other provisions, the CARES Act and congressional approval made available for small businesses approximately \$660.0 billion under the Paycheck Protection Program (PPP), which is a guaranteed loan program administered by the U.S. Small Business Administration (SBA). We obtained approval from the SBA in April 2020 to participate as a lender in the PPP. Loan applicants with 500 or fewer employees or who fit within the revenue-based size standard and who are eligible to receive financing under the Farm Credit Act and the FCA Regulations are able to borrow from our association under this program. The PPP provided for loan forgiveness under limited circumstances and loan payments were deferred up to six months. As of December 31, 2020, we have \$1.1 million outstanding PPP loans for customers with production and intermediate-term type loans. We are working with our customers gathering documentation and submitting applications for the forgiveness of the PPP loans and \$2.1 million has been forgiven as of December 31, 2020. At the end of December 2020, additional legislation was passed to extend the PPP by approximately \$280.0 billion, which modified and expanded eligibility to borrowers and will be available through March 31, 2021.

We offer variable, fixed, capped, indexed, and adjustable interest rate loan programs to our borrowers. We also offer lease programs through our affiliation with Farm Credit Leasing. Refer to the Relationships with other Farm Credit Institutions section of this report for further information. We determine interest margins charged on each lending program based on cost of funds, credit risk, market conditions, and the need to generate sufficient earnings.

Portfolio Distribution

Our portfolio is concentrated primarily in the following states at December 31, 2020: North Dakota 62.1% and California 5.8%. The remainder of our portfolio is purchased outside of these states to support rural America and to diversify our portfolio risk. Approximately 15.9% of our total loan portfolio was in Ward and Wells counties at December 31, 2020.

Agricultural Concentrations

As of December 31	2020	2019	2018
Cash grains	52.8%	55.6%	59.1%
Food processing	9.2%	8.4%	6.9%
Livestock	8.8%	9.5%	9.3%
Rural utilities	8.5%	7.7%	7.2%
Farm machinery	4.9%	3.7%	4.0%
Landlords	3.6%	3.7%	4.1%
Other	12.2%	11.4%	9.4%
Total	100.0%	100.0%	100.0%

Commodities are based on the borrower's primary intended commodity at the time of loan origination and may change due to borrower business decisions as a result of changes in weather, prices, input costs, and other circumstances.

Typically, our production and intermediate-term loan portfolio exhibits some seasonality relating to patterns of operating loans made to crop producers. These loans are normally at their lowest levels following the harvest and then increase in the spring and throughout the rest of the year as borrowers fund operating needs.

Portfolio Credit Quality

The credit quality of our portfolio improved slightly from December 31, 2019. Adversely classified loans decreased to 3.6% of the portfolio at December 31, 2020, from 3.9% of the portfolio at December 31, 2019. Adversely classified loans are loans we have identified as showing some credit weakness outside our credit standards. We have considered portfolio credit quality in assessing the reasonableness of our allowance for loan losses.

In certain circumstances, government agency guarantee programs are used to reduce the risk of loss. At December 31, 2020, \$45.1 million of our loans were, to some level, guaranteed under these government programs.

Risk Assets

Components of Risk Assets

(dollars in thousands)

As of December 31	2020	2019	2018
Loans:			
Nonaccrual	\$ 3,798	\$ 7,783	\$ 8,517
Accruing restructured	362	385	403
Accruing loans 90 days or more past due	--	6	--
Total risk loans	4,160	8,174	8,920
Other property owned	--	--	--
Total risk assets	\$ 4,160	\$ 8,174	\$ 8,920
Total risk loans as a percentage of total loans	0.3%	0.6%	0.7%
Nonaccrual loans as a percentage of total loans	0.3%	0.6%	0.7%
Current nonaccrual loans as a percentage of total nonaccrual loans	15.5%	43.6%	62.9%
Total delinquencies as a percentage of total loans	0.5%	0.7%	0.3%

Note: Accruing loans include accrued interest receivable.

Our risk assets have decreased from December 31, 2019, and have remained at acceptable levels. Total risk loans as a percentage of total loans were well within our established risk management guidelines.

The decrease in nonaccrual loans was primarily related to an upgrade of one account to accrual and payments received on other nonaccrual accounts. Nonaccrual loans remained at an acceptable level at December 31, 2020, 2019, and 2018.

Our accounting policy requires loans past due 90 days or more to be transferred into nonaccrual status unless adequately secured and in the process of collection. Based on our analysis in 2019, accruing loans 90 days or more past due were eligible to remain in accruing status.

Allowance for Loan Losses

The allowance for loan losses is an estimate of losses on loans inherent in our portfolio as of the financial statement date. We determine the appropriate level of allowance for loan losses based on the periodic evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions.

Allowance Coverage Ratios

As of December 31	2020	2019	2018
Allowance as a percentage of:			
Loans	0.3%	0.3%	0.3%
Nonaccrual loans	100.0%	49.1%	43.4%
Total risk loans	91.3%	46.7%	41.4%
Net charge-offs as a percentage of average loans	0.0%	0.0%	0.0%
Adverse assets to capital and allowance for loan losses	14.2%	15.5%	14.3%

In our opinion, the allowance for loan losses was reasonable in relation to the risk in our loan portfolio at December 31, 2020.

Additional loan information is included in Notes 3, 10, 11, and 12 to the accompanying Consolidated Financial Statements.

RESULTS OF OPERATIONS

Profitability Information

(dollars in thousands)

For the year ended December 31	2020	2019	2018
Net income	\$ 27,649	\$ 26,242	\$ 25,394
Return on average assets	2.0%	2.0%	2.0%
Return on average members' equity	8.3%	8.5%	9.0%

Changes in the chart above relate directly to:

- Changes in income discussed in this section
- Changes in assets discussed in the Loan Portfolio section
- Changes in capital discussed in the Capital Adequacy section

Changes in Significant Components of Net Income

(in thousands)	For the year ended December 31			Increase (decrease) in net income	
	2020	2019	2018	2020 vs 2019	2019 vs 2018
Net interest income	\$ 33,210	\$ 30,015	\$ 30,804	\$ 3,195	\$ (789)
Provision for loan losses	300	345	766	45	421
Non-interest income	17,820	19,191	17,223	(1,371)	1,968
Non-interest expense	22,454	21,818	21,254	(636)	(564)
Provision for income taxes	627	801	613	174	(188)
Net income	\$ 27,649	\$ 26,242	\$ 25,394	\$ 1,407	\$ 848

Net Interest Income

Changes in Net Interest Income

(in thousands)	For the year ended December 31	
	2020 vs 2019	2019 vs 2018
Changes in volume	\$ 1,591	\$ 1,032
Changes in interest rates	1,608	(1,699)
Changes in nonaccrual income and other	(4)	(122)
Net change	\$ 3,195	\$ (789)

Net interest income included income on nonaccrual loans that totaled \$102 thousand, \$107 thousand, and \$229 thousand in 2020, 2019, and 2018, respectively. Nonaccrual income is recognized when received in cash, collection of the recorded investment is fully expected, and prior charge-offs have been recovered. See the Regulatory Matters section for discussion regarding revised criteria to reinstate nonaccrual loans to accrual status.

Net interest margin (net interest income as a percentage of average earning assets) was 2.5%, 2.4%, and 2.5% in 2020, 2019, and 2018, respectively. Our net interest margin is sensitive to interest rate changes and competition.

Provision for Loan Losses

The fluctuation in the provision for loan losses was related to changes in our specific reserves and estimate of losses in our portfolio, charge-off and recovery activity, and changes in loan volume. Additional discussion is included in Note 3 to the accompanying Consolidated Financial Statements.

Non-Interest Income

The change in non-interest income was primarily due to changes in patronage income, financially related services income, and other non-interest income.

Patronage Income: We may receive patronage from AgriBank and other Farm Credit Institutions. Patronage distributions from AgriBank and other Farm Credit Institutions are declared solely at the discretion of each institution's Board of Directors.

Patronage Income

(in thousands)	For the year ended December 31		
	2020	2019	2018
Patronage from AgriBank	\$ 7,501	\$ 6,939	\$ 5,471
Other patronage	110	12	8
Total patronage income	\$ 7,611	\$ 6,951	\$ 5,479
Form of patronage distributions:			
Cash	\$ 7,611	\$ 4,368	\$ 5,479
Stock	--	2,583	--
Total patronage income	\$ 7,611	\$ 6,951	\$ 5,479

Patronage from AgriBank primarily includes wholesale patronage and pool program patronage. All patronage payments are at the sole discretion of the AgriBank Board of Directors and are determined based on actual financial results, projections, and long-term capital goals.

Financially Related Services Income: The decrease in financially related services income was primarily due to a decrease in multi-peril crop insurance income.

Other Non-interest Income: The decrease in other non-interest income was primarily due to the gain on the sale of our Corporate Headquarters/Minot Branch office in 2019. The Association subsequently purchased a different Corporate Headquarters/Minot Branch office.

Non-Interest Expense

Components of Non-interest Expense

(dollars in thousands)

For the year ended December 31	2020	2019	2018
Salaries and employee benefits	\$ 13,855	\$ 13,509	\$ 13,085
Other operating expense:			
Purchased and vendor services	1,712	1,491	1,469
Communications	195	187	177
Occupancy and equipment	1,696	1,419	1,221
Advertising and promotion	521	606	637
Examination	458	463	503
Farm Credit System insurance	1,000	917	900
Other	3,001	3,174	2,937
Other non-interest expense	16	52	325
Total non-interest expense	\$ 22,454	\$ 21,818	\$ 21,254
Operating rate	1.7%	1.7%	1.7%

The change in non-interest expense was primarily related to increased salaries and employee benefits expense.

Provision for Income Taxes

The variance in provision for income taxes was related to our estimate of taxes based on taxable income and the impact of implementation of our patronage program. Additional discussion is included in Note 8 to the accompanying Consolidated Financial Statements.

FUNDING AND LIQUIDITY

We borrow from AgriBank, under a note payable, in the form of a line of credit, as described in Note 5 to the accompanying Consolidated Financial Statements. This line of credit is our primary source of liquidity and is used to fund operations and meet current obligations. At December 31, 2020, we had \$549.0 million available under our line of credit. We generally apply excess cash to this line of credit. Due to the cooperative structure of the Farm Credit System and as we are a stockholder of AgriBank, we expect this borrowing relationship to continue into the foreseeable future. Our other source of lendable funds is from equity.

Note Payable Information

(dollars in thousands)

For the year ended December 31	2020	2019	2018
Average balance	\$ 1,042,411	\$ 1,001,232	\$ 982,548
Average interest rate	1.2%	2.7%	2.4%

Our average cost of funds is variable and may fluctuate based on the current interest rate environment.

In 2017, the United Kingdom's Financial Conduct Authority, which regulates the London Inter-bank Offer Rate (LIBOR), announced its intention to stop persuading or compelling the group of major banks that sustains LIBOR to submit rate quotations after 2021. As a result, it is expected, but not certain, that LIBOR will no longer be quoted after 2021. In late 2020, ICE Benchmark Administration (IBA), the administrator of LIBOR, announced its intention to publish major USD LIBOR indexes through June 30, 2023. The FCA issued a response and guidance that the IBA proposal is not in any way intended to slow down the transition.

The repricing attributes of our line of credit generally correspond to the repricing attributes of our loan portfolio, which significantly reduces our market interest rate risk. However, we maintain some exposure to interest rates, including LIBOR, primarily from loans to customers which may not have a component of our line of credit with an exact repricing attribute. At this time, it remains uncertain when LIBOR will cease to be available or if the Secured Overnight Financing Rate (SOFR) will become the benchmark to replace LIBOR.

The Farm Credit System has established a LIBOR transition workgroup to provide leadership in addressing the LIBOR phase-out across System entities. In coordination with this group, we have developed a comprehensive project plan to address the issues surrounding a transition away from LIBOR. This plan is consistent with regulatory guidance from the FCA, and it incorporates actions to address risk identification and reporting, mitigation strategies, development or adoption of products utilizing alternative reference rates, operational and system impacts, a process for monitoring regulatory and industry developments, as well as communication to stakeholders. While many factors can impact our net interest income, we do not expect a significant impact due to the LIBOR transition at this time.

CAPITAL ADEQUACY

Total members' equity was \$344.1 million, \$320.8 million, and \$295.0 million at December 31, 2020, 2019, and 2018, respectively. Total members' equity increased \$23.3 million from December 31, 2019, primarily due to net income for the year and partially offset by patronage distribution accruals.

The FCA Regulations require us to maintain minimums for our common equity tier 1, tier 1 capital, total capital, and permanent capital risk-based capital ratios. In addition, the FCA requires us to maintain minimums for our non-risk-adjusted ratios of tier 1 leverage and unallocated retained earnings and equivalents leverage.

Regulatory Capital Requirements and Ratios

As of December 31	2020	2019	2018	Regulatory Minimums	Capital Conservation Buffer	Total
Risk-adjusted:						
Common equity tier 1 ratio	20.5%	19.8%	18.6%	4.5%	2.5%	7.0%
Tier 1 capital ratio	20.5%	19.8%	18.6%	6.0%	2.5%	8.5%
Total capital ratio	20.7%	20.1%	18.9%	8.0%	2.5%	10.5%
Permanent capital ratio	20.5%	19.8%	18.6%	7.0%	N/A	7.0%
Non-risk-adjusted:						
Tier 1 leverage ratio	23.0%	21.7%	20.6%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	24.0%	22.8%	21.3%	1.5%	N/A	1.5%

Our capital plan is designed to maintain an adequate amount of surplus and allowance for loan losses which represents our reserve for adversity prior to impairment of stock. We manage our capital to allow us to meet member needs and protect member interests, both now and in the future.

Capital ratios are directly impacted by changes in capital, assets, and off-balance sheet commitments. Refer to the Loan Portfolio section for further discussion of the changes in assets. Additional discussion of regulatory ratios and members' equity information is included in Note 7 to the accompanying Consolidated Financial Statements and off-balance sheet commitments are discussed in Note 11 to the accompanying Consolidated Financial Statements.

In addition to these regulatory requirements, we establish an optimum permanent capital target range. This target allows us to maintain a capital base adequate for future growth and investment in new products and services. The target is subject to revision as circumstances change. Our optimum permanent capital target range was 17% to 22%, as defined in our 2021 capital plan.

In September 2020, the Board of Directors adopted a resolution that would allow us to make patronage distributions in the future. Patronage distributions may be declared and paid in amounts authorized by the Board of Directors provided we meet all statutory and regulatory requirements. All patronage distributions must be paid on an equitable and nondiscriminatory basis as determined by the Board of Directors. We accrued patronage distributions of \$4.3 million at December 31, 2020. No patronage distributions were accrued as of December 31, 2019 or 2018. The patronage distributions are expected to be paid in cash during the first quarter of 2021. If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval. We do not foresee any events that would result in this prohibition in 2021.

RELATIONSHIP WITH AGRIBANK

Borrowing

We borrow from AgriBank to fund our lending operations in accordance with the Farm Credit Act. Approval from AgriBank is required for us to borrow elsewhere. A General Financing Agreement (GFA), as discussed in Note 5 to the accompanying Consolidated Financial Statements, governs this lending relationship.

The components of cost of funds under the GFA include:

- A marginal cost of debt component
- A spread component, which includes cost of servicing, cost of liquidity, and bank profit
- A risk premium component, if applicable

In the periods presented, we were not subject to the risk premium component. Certain factors may impact our cost of funds, which primarily include market interest rate changes impacting marginal cost of debt as well as changes to pricing methodologies impacting the spread components described above.

The marginal cost of debt approach simulates matching the cost of underlying debt with similar terms as the anticipated terms of our loans to borrowers. This approach substantially protects us from market interest rate risk. We may occasionally engage in funding strategies that result in limited interest rate risk with approval by AgriBank's Asset/Liability Committee.

Investment

We are required to invest in AgriBank capital stock as a condition of borrowing. This investment may be in the form of purchased stock or stock representing distributed AgriBank surplus. As of December 31, 2020, we were required by AgriBank to maintain an investment equal to 2.5% of the average quarterly balance of our note payable, with an additional amount required on association growth in excess of a targeted growth rate, if the District is also growing above a targeted growth rate.

We are also required to hold additional investment in AgriBank based on a contractual agreement under a pool program.

Patronage

AgriBank's capital plan is intended to provide for adequate capital at AgriBank under capital regulations as well as to create a path to long-term capital optimization within the AgriBank District. The plan optimizes capital at AgriBank; distributing available AgriBank earnings in the form of patronage, either cash or AgriBank stock, which is at the sole discretion of the AgriBank Board of Directors. The plan is designed to maintain capital adequacy such that sufficient earnings will be retained in the form of unallocated retained earnings and allocated stock to meet the leverage ratio target and other regulatory or policy constraints prior to any cash patronage distributions.

Purchased Services

As of December 31, 2020, we purchased certain business services from AgriBank. Until the formation of SunStream Business Services (SunStream) on April 1, 2020, we also purchased financial and retail information technology, collateral, tax reporting, and insurance services from AgriBank. These services are now offered by SunStream. For further discussion on our relationship with SunStream see the Other Relationships and Programs section. Additional related party information is included in Note 10 to the accompanying Consolidated Financial Statements.

Impact on Members' Investment

Due to the nature of our financial relationship with AgriBank, the financial condition and results of operations of AgriBank materially impact our members' investment.

OTHER RELATIONSHIPS AND PROGRAMS

Relationships with Other Farm Credit Institutions

AgCountry CFG: We participate in AgCountry CFG, an alliance with certain other associations in the AgriBank District to better meet the financial needs of agricultural producers and agribusiness operations. AgCountry CFG is directed by representatives from participating associations. These loans are shared based on each association's participation interest of the AgCountry CFG volume. Each association determines its commitment for new volume opportunities based on its capacity and preferences. We had \$476.2 million, \$411.8 million, and \$352.5 million of AgCountry CFG volume at December 31, 2020, 2019, and 2018, respectively. We also had \$190.1 million of available commitment on AgCountry CFG loans at December 31, 2020.

ProPartners Financial: We participate in ProPartners Financial (ProPartners) with certain Farm Credit System institutions to provide producer financing through agribusinesses that sell crop inputs. ProPartners is directed by representatives from participating associations. Through November 30, 2018, the income, expense, and credit risks were allocated based on each association's participation interest of the ProPartners volume. Each association's allocation was established based on mutual agreement of the owners. On December 1, 2018, we sold to AgriBank our entire interest in the loans associated with ProPartners. As part of this program we receive patronage income at the sole discretion of the AgriBank Board of Directors. AgriBank immediately purchases a 100% participation interest in all new ProPartners loans.

CentRic Technology Collaboration: We participate in CentRic Technology Collaboration (CTC) with certain other AgriBank District associations. The CTC facilitates the development and maintenance of certain retail technology systems essential to providing credit and other services to our members. The CTC operations are governed by representatives of each participating association. The expenses of CTC are allocated to each of the participating associations based on an agreed upon formula. The systems developed are owned by each of the participating associations.

FCS of Mandan, ACA: Effective January 1, 2021, we formed an alliance with FCS of Mandan, ACA to integrate the associations' Appraisal Departments. All appraisal staff are jointly employed and managed by both associations. Effective January 1, 2017, we formed an alliance with FCS of Mandan, ACA to integrate the associations' Technology Departments. All information technology staff are jointly employed and managed by both associations.

Farm Credit Leasing Services Corporation: We have an agreement with Farm Credit Leasing Services Corporation (FCL), a System service corporation, which specializes in leasing products and provides industry expertise. Leases are originated and serviced by FCL and we receive a fee from FCL at the origination of the transaction. This arrangement provides our members with a broad selection of product offerings and enhanced lease expertise.

CoBank, ACB: We have a relationship with CoBank, ACB (CoBank), a System bank, which involves purchasing participation interests in loans. As part of this relationship, our equity investment in CoBank was \$0, \$5 thousand, and \$7 thousand at December 31, 2020, 2019, and 2018, respectively.

SunStream Business Services: We have a relationship with SunStream, which involves purchasing financial and retail information technology, collateral, tax reporting, and insurance services. SunStream was a division of AgriBank prior to April 1, 2020, when SunStream formed a separate System service corporation, of which we are a partial owner. Our entire investment in SunStream was called on April 1, 2020, at which time \$170 thousand was paid in cash and the remainder was paid in January 2021. As of December 31, 2020, our investment in SunStream was \$305 thousand. Additional related party information is included in Note 10 to the accompanying Consolidated Financial Statements.

Farm Credit Foundations: We have a relationship with Farm Credit Foundations (Foundations), a System service corporation, which involves purchasing human resource, benefit, payroll, and workforce management services. As of December 31, 2020, 2019, and 2018, our investment in Foundations was \$17 thousand. Additional related party information is included in Note 10 to the accompanying Consolidated Financial Statements.

Programs

We are involved in a number of programs designed to improve our credit delivery, related services, and marketplace presence.

Equipment Financing: We have entered into agreements with certain dealer networks to provide alternative service delivery channels to borrowers. These trade credit opportunities create more flexible and accessible financing options to borrowers through dealer point-of-purchase financing programs.

Farm Cash Management: We offer Farm Cash Management to our members. Farm Cash Management links members' revolving lines of credit with an AgriBank investment bond to optimize members' use of funds.

REGULATORY MATTERS

Criteria to Reinstate Nonaccrual Loans

The FCA Board approved a final rule to revise how high-risk loans for System banks and associations are classified by clarifying the factors used to place loans in nonaccrual status and revising reinstatement criteria, which became effective October 21, 2020. The stated objectives of the revised requirements are to:

- Enhance the usefulness of high-risk loan categories
- Replace the subjective measure of "reasonable doubt" used for reinstating loans to accrual status with a measurable standard
- Improve the timely recognition of a change in a loan's status
- Update existing terminology and make other grammatical changes

Investment Securities Eligibility

The FCA Board approved a final rule to amend the investment eligibility regulation. The final rule became effective December 4, 2020, and allows associations to purchase portions of loans in the secondary market that are fully and unconditionally guaranteed by the United States Department of Agriculture (USDA). We currently do not have investment securities on our Consolidated Statements of Condition.

For both final rules we are in the process of updating our policies, procedures, and other documentation to ensure compliance with the amended regulations. The amendments did not have a material impact to our financial statements.

REPORT OF MANAGEMENT

Farm Credit Services of North Dakota, ACA

We prepare the Consolidated Financial Statements of Farm Credit Services of North Dakota, ACA (the Association) and are responsible for their integrity and objectivity, including amounts that must necessarily be based on judgments and estimates. The Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The Consolidated Financial Statements, in our opinion, fairly present the financial condition of the Association. Other financial information included in the Annual Report is consistent with that in the Consolidated Financial Statements.

To meet our responsibility for reliable financial information, we depend on accounting and internal control systems designed to provide reasonable, but not absolute assurance that assets are safeguarded and transactions are properly authorized and recorded. Costs must be reasonable in relation to the benefits derived when designing accounting and internal control systems. Financial operations audits are performed to monitor compliance. PricewaterhouseCoopers LLP, our independent auditors, audit the Consolidated Financial Statements. They also consider internal controls to the extent necessary to design audit procedures that comply with auditing standards generally accepted in the United States of America. The Farm Credit Administration also performs examinations for safety and soundness as well as compliance with applicable laws and regulations.

The Board of Directors has overall responsibility for our system of internal control and financial reporting. The Board of Directors and its Audit Committee consults regularly with us and meets periodically with the independent auditors and other auditors to review the scope and results of their work. The independent auditors have direct access to the Board of Directors, which is composed solely of directors who are not officers or employees of the Association.

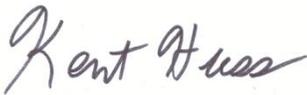

The undersigned certify we have reviewed the Association's Annual Report, which has been prepared in accordance with all applicable statutory or regulatory requirements. The information contained herein is true, accurate, and complete to the best of our knowledge and belief.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Farm Credit Services of North Dakota, ACA

The Farm Credit Services of North Dakota, ACA (the Association) principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining effective internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of December 31, 2020. In making the assessment, management used the 2013 framework in *Internal Control — Integrated Framework*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association concluded that as of December 31, 2020, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of December 31, 2020.

REPORT OF AUDIT COMMITTEE

Farm Credit Services of North Dakota, ACA

The Consolidated Financial Statements were prepared under the oversight of the Audit Committee. The Audit Committee is composed of a subset of the Board of Directors of Farm Credit Services of North Dakota, ACA (the Association). The Audit Committee oversees the scope of the Association's internal audit program, the approval, and independence of PricewaterhouseCoopers LLP (PwC) as independent auditors, the adequacy of the Association's system of internal controls and procedures, and the adequacy of management's actions with respect to recommendations arising from those auditing activities. The Audit Committee's responsibilities are described more fully in the Internal Control Policy and the Audit Committee Charter.

Management is responsible for internal controls and the preparation of the Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America. PwC is responsible for performing an independent audit of the Consolidated Financial Statements in accordance with auditing standards generally accepted in the United States of America and to issue their report based on their audit. The Audit Committee's responsibilities include monitoring and overseeing these processes.

In this context, the Audit Committee reviewed and discussed the audited Consolidated Financial Statements for the year ended December 31, 2020, with management. The Audit Committee also reviewed with PwC the matters required to be discussed by Statement on Auditing Standards AU-C 260, *The Auditor's Communication with Those Charged with Governance*, and both PwC and the internal auditors directly provided reports on any significant matters to the Audit Committee.

The Audit Committee had discussions with and received written disclosures from PwC confirming its independence. The Audit Committee also reviewed the non-audit services provided by PwC, if any, and concluded these services were not incompatible with maintaining PwC's independence. The Audit Committee discussed with management and PwC any other matters and received any assurances from them as the Audit Committee deemed appropriate.

Based on the foregoing review and discussions, and relying thereon, the Audit Committee recommended that the Board of Directors include the audited Consolidated Financial Statements in the Annual Report for the year ended December 31, 2020.

Report of Independent Auditors

To the Board of Directors of Farm Credit Services of North Dakota, ACA,

We have audited the accompanying Consolidated Financial Statements of Farm Credit Services of North Dakota, ACA and its subsidiaries (the Association), which comprise the consolidated statements of condition as of December 31, 2020, 2019, and 2018, and the related consolidated statements of comprehensive income, changes in members' equity and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of Consolidated Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the Consolidated Financial Statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Consolidated Financial Statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Association's preparation and fair presentation of the Consolidated Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Consolidated Financial Statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Consolidated Financial Statements referred to above present fairly, in all material respects, the financial position of Farm Credit Services of North Dakota, ACA and its subsidiaries as of December 31, 2020, 2019, and 2018, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these Consolidated Financial Statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Farm Credit Services of North Dakota, ACA

NOTE 1: ORGANIZATION AND OPERATIONS

Farm Credit System and District

The Farm Credit System (System) is a federally chartered network of borrower-owned lending institutions comprised of cooperatives and related service organizations, established by Congress to meet the credit needs of American agriculture. As of January 1, 2021, the System consisted of three Farm Credit Banks, one Agricultural Credit Bank, and 67 borrower-owned cooperative lending institutions (associations). AgriBank, FCB (AgriBank), a System Farm Credit Bank, and its District associations are collectively referred to as the AgriBank Farm Credit District (AgriBank District or the District). At January 1, 2021, the District consisted of 14 Agricultural Credit Associations (ACA) that each have wholly-owned Federal Land Credit Association (FLCA) and Production Credit Association (PCA) subsidiaries.

FLCAs are authorized to originate long-term real estate mortgage loans. PCAs are authorized to originate short-term and intermediate-term loans. ACAs are authorized to originate long-term real estate mortgage loans and short-term and intermediate-term loans either directly or through their subsidiaries. Associations are authorized to provide lease financing options for agricultural purposes and are also authorized to purchase and hold certain types of investments. AgriBank provides funding to all associations chartered within the District.

Associations are authorized to provide, either directly or in participation with other lenders, credit and related services to eligible borrowers. Eligible borrowers may include farmers, ranchers, producers or harvesters of aquatic products, rural residents, and farm-related service businesses. In addition, associations can participate with other lenders in loans to similar entities. Similar entities are parties that are not eligible for a loan from a System lending institution, but have operations that are functionally similar to the activities of eligible borrowers.

The Farm Credit Administration (FCA) is authorized by Congress to regulate the System banks and associations. We are examined by the FCA and certain association actions are subject to the prior approval of the FCA and/or AgriBank.

The Farm Credit System Insurance Corporation (FCSIC) administers the Farm Credit Insurance Fund (Insurance Fund). The Insurance Fund is used to ensure the timely payment of principal and interest on Farm Credit Systemwide debt obligations, to ensure the retirement of protected borrower capital at par or stated value, and for other specified purposes.

At the discretion of the FCSIC, the Insurance Fund is also available to provide assistance to certain troubled System institutions and for the operating expenses of the FCSIC. Each System bank is required to pay premiums into the Insurance Fund until the assets in the Insurance Fund equal 2.0% of the aggregated insured obligations adjusted to reflect the reduced risk on loans or investments guaranteed by federal or state governments. This percentage of aggregate obligations can be changed by the FCSIC, at its sole discretion, to a percentage it determines to be actuarially sound. The basis for assessing premiums is debt outstanding with adjustments made for nonaccrual loans and impaired investment securities which are assessed a surcharge while guaranteed loans and investment securities are deductions from the premium base. AgriBank, in turn, assesses premiums to District associations each year based on similar factors.

Association

Farm Credit Services of North Dakota, ACA (the Association) and its subsidiaries, Farm Credit Services of North Dakota, FLCA and Farm Credit Services of North Dakota, PCA (subsidiaries) are lending institutions of the System. We are a customer-owned cooperative providing credit and credit-related services to, or for the benefit of, eligible members for qualified agricultural purposes in the counties of Benson, Bottineau, Burke, Divide, Eddy, Foster, McHenry, McKenzie, northern McLean, Mountrail, Pierce, Renville, Rolette, northern Sheridan, Ward, Wells, and Williams in the state of North Dakota.

We borrow from AgriBank and provide financing and related services to our members. Our ACA holds all the stock of the FLCA and PCA subsidiaries.

We offer credit life, term life, credit disability, crop hail, and multi-peril crop insurance to borrowers and those eligible to borrow. We also offer fee appraisals and through affiliations, retirement and succession planning to our members.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Principles and Reporting Policies

Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America (GAAP) and the prevailing practices within the financial services industry. Preparing financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Principles of Consolidation

The Consolidated Financial Statements present the consolidated financial results of Farm Credit Services of North Dakota, ACA and its subsidiaries. All material intercompany transactions and balances have been eliminated in consolidation.

Significant Accounting Policies

Loans: Loans are carried at their principal amount outstanding net of any unearned income, cumulative charge-offs, unamortized deferred fees and costs on originated loans, and unamortized premiums or discounts on purchased loans. Loan interest is accrued and credited to interest income based upon the daily principal amount outstanding. Origination fees, net of related costs, are deferred and recognized over the life of the loan as an adjustment to net interest income. The net amount of loan fees and related origination costs are not material to the Consolidated Financial Statements taken as a whole.

Generally we place loans in nonaccrual status when principal or interest is delinquent for 90 days or more (unless the loan is adequately secured and in the process of collection) or circumstances indicate that full collection is not expected.

When a loan is placed in nonaccrual status, we reverse current year accrued interest to the extent principal plus accrued interest before the transfer exceeds the net realizable value of the collateral. Any unpaid interest accrued in a prior year is capitalized to the recorded investment of the loan, unless the net realizable value is less than the recorded investment in the loan, then it is charged-off against the allowance for loan losses. Any cash received on nonaccrual loans is applied to reduce the recorded investment in the loan, except in those cases where the collection of the recorded investment is fully expected and certain other criteria are met. In these circumstances interest is credited to income when cash is received. Loans are charged-off at the time they are determined to be uncollectible. Nonaccrual loans may be returned to accrual status after remaining current as to principal and interest for a sustained period or have a recent repayment pattern demonstrating future repayment capacity to make on-time payments.

In situations where, for economic or legal reasons related to the borrower's financial difficulties, we grant a concession for other than an insignificant period of time to the borrower that we would not otherwise consider, the related loan is classified as a troubled debt restructuring, also known as a formally restructured loan for regulatory purposes. A concession is generally granted in order to minimize economic loss and avoid foreclosure. Concessions vary by program and borrower and may include interest rate reductions, term extensions, payment deferrals, or an acceptance of additional collateral in lieu of payments. In limited circumstances, principal may be forgiven. Loans classified as troubled debt restructurings are considered risk loans (as defined below). There may be modifications made related to the COVID-19 pandemic or in the normal course of business that would not be considered troubled debt restructurings (TDRs).

Loans that are sold as participations are transferred as entire financial assets, groups of entire financial assets, or participating interests in the loans. The transfers of such assets or participating interests are structured such that control over the transferred assets, or participating interests have been surrendered and that all of the conditions have been met to be accounted for as a sale.

Allowance for Loan Losses: The allowance for loan losses is our best estimate of the amount of losses on loans inherent in our portfolio as of the date of the financial statements. We determine the appropriate level of allowance for loan losses based on periodic evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions.

Loans in our portfolio that are considered impaired are analyzed individually to establish a specific allowance. A loan is impaired when it is probable that all amounts due will not be collected according to the contractual terms of the loan agreement. We generally measure impairment based on the net realizable value of the collateral. Risk loans include nonaccrual loans, accruing restructured loans, and accruing loans 90 days or more past due. All risk loans are considered to be impaired loans.

We record a specific allowance to reduce the carrying amount of the risk loan by the amount the recorded investment exceeds the net realizable value of collateral. When we deem a loan to be uncollectible, we charge the loan principal and prior year(s) accrued interest against the allowance for loan losses. Subsequent recoveries, if any, are added to the allowance for loan losses.

An allowance is recorded for probable and estimable credit losses as of the financial statement date for loans that are not individually assessed as impaired. We use a two-dimensional loan risk rating model that incorporates a 14-point rating scale to identify and track the probability of borrower default and a separate 6-point scale addressing the loss severity. The combination of estimated default probability and loss severity is the primary basis for recognition and measurement of loan collectability of these pools of loans. These estimated losses may be adjusted for relevant current environmental factors.

Changes in the allowance for loan losses consist of provision activity, recorded in "Provision for loan losses" in the Consolidated Statements of Comprehensive Income, recoveries, and charge-offs.

Investment in AgriBank: Our stock investment in AgriBank is on a cost plus allocated equities basis.

Premises and Equipment: The carrying amount of premises and equipment is at cost, less accumulated depreciation. Calculation of depreciation is generally on the straight-line method over the estimated useful lives of the assets. Gains or losses on disposition are included in "Other non-interest income" or "Other non-interest expense" in the Consolidated Statements of Comprehensive Income. Depreciation and maintenance and repair expenses are included in "Other operating expense" in the Consolidated Statements of Comprehensive Income and improvements are capitalized.

Leases: We are the lessee in operating leases. We evaluate arrangements at inception to determine if it is a lease. Leases with an initial term of 12 months or less are not recorded on the Consolidated Statements of Condition with lease expense recognized on a straight-line basis over the lease term. For operating leases with terms greater than 12 months the right-of-use (ROU) assets are included in "Other assets" in the Consolidated Statements of Condition and the lease liabilities are included in "Other liabilities" in the Consolidated Statements of Condition.

The ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. We use the implicit rate when readily determinable. Our lease terms may include options to extend or terminate the lease. The length of the lease term is modified to include the option when it is reasonably certain that we will exercise that option. Operating lease expense for lease payments is recognized on a straight-line basis over the lease term.

We were the lessor in operating leases during 2020, 2019, and 2018. Under operating leases, property is recorded at cost and depreciated on a straight-line basis over the lease term to an estimated residual value. We recognize operating lease revenue evenly over the term of the lease and charge depreciation and other expenses against revenue as incurred in "Other non-interest income" in the Consolidated Statements of Comprehensive Income. The amortized cost of operating leases is included in "Other assets" in the Consolidated Statements of Condition and represents the asset cost net of accumulated depreciation.

Post-Employment Benefit Plans: The District has various post-employment benefit plans in which our employees participate. Expenses related to these plans, except for the AgriBank District Pension Restoration Plan, are included in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income.

Certain employees participate in the AgriBank District Retirement Plan. The plan is comprised of two benefit formulas. At their option, employees hired prior to October 1, 2001, are on the cash balance formula or on the final average pay formula. Benefits eligible employees hired between October 1, 2001, and December 31, 2006, are on the cash balance formula. Effective January 1, 2007, the AgriBank District Retirement Plan was closed to new employees. The AgriBank District Retirement Plan utilizes the "Projected Unit Credit" actuarial method for financial reporting and funding purposes.

Certain employees also participate in the AgriBank District Pension Restoration Plan. This plan restores retirement benefits to certain highly compensated eligible employees that would have been provided under the qualified plan if such benefits were not above certain Internal Revenue Code limits. The pension liability attributable to the Pension Restoration Plan at the Association and the related accumulated other comprehensive loss are included in the Consolidated Statements of Condition. The components of the net periodic cost other than the service cost component, are included in the line item "Other operating expense" on the Consolidated Statements of Comprehensive Income. Service costs are included in the line item "Salaries and employee benefits" on the Consolidated Statements of Comprehensive Income.

We also provide certain health insurance benefits to eligible retired employees according to the terms of those benefit plans. The anticipated cost of these benefits is accrued during the employees' active service period.

The defined contribution plan allows eligible employees to save for their retirement either pre-tax, post-tax, or both, with an employer match on a percentage of the employee's contributions. We provide benefits under this plan for those employees that do not participate in the AgriBank District Retirement Plan in the form of a fixed percentage of salary contribution in addition to the employer match. Employer contributions are expensed when incurred.

Certain employees also participate in the Nonqualified Deferred Compensation Plan. Eligible participants must meet one of the following criteria: certain salary thresholds as determined by the Internal Revenue Service (IRS), are either a Chief Executive Officer or President of a participating employer, or have previously elected pre-tax deferrals in 2006 under predecessor nonqualified deferred compensation plans. Under this plan the employee may defer a portion of his/her salary, bonus, and other compensation. Additionally, the plan provides for supplemental employer matching contributions related to any compensation deferred by the employee that would have been eligible for a matching contribution under the retirement savings plan if it were not for certain IRS limitations.

Income Taxes: The ACA and PCA accrue federal and state income taxes. Deferred tax assets and liabilities are recognized for future tax consequences of temporary differences between the carrying amounts and tax basis of assets and liabilities. Deferred tax assets are recorded if the deferred tax asset is more likely than not to be realized. If the realization test cannot be met, the deferred tax asset is reduced by a valuation allowance. The expected future tax consequences of uncertain income tax positions are accrued.

The FLCA is exempt from federal and other taxes to the extent provided in the Farm Credit Act.

Patronage Program: We accrue patronage distributions according to a prescribed formula approved by the Board of Directors. Generally, we pay the accrued patronage during the first quarter after year end.

Off-Balance Sheet Credit Exposures: Commitments to extend credit are agreements to lend to customers, generally having fixed expiration dates or other termination clauses. Standby letters of credit are agreements to pay a beneficiary if there is a default on a contractual arrangement. Any reserve for unfunded lending commitments and unexercised letters of credit is based on management's best estimate of losses inherent in these instruments, but the commitments have not yet disbursed. Factors such as likelihood of disbursement and likelihood of losses given disbursement are utilized in determining a reserve, if needed. Based on our assessment, any reserve would be recorded in "Other liabilities" in the Consolidated Statements of Condition and a corresponding loss would be recorded in "Provision for loan losses" in the Consolidated Statements of Comprehensive Income. However, no such reserve was necessary as of December 31, 2020, 2019, or 2018.

Cash: For purposes of reporting cash flow, cash includes cash on hand.

Fair Value Measurement: The accounting guidance describes three levels of inputs that may be used to measure fair value.

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly. Level 2 inputs include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active so that they are traded less frequently than exchange-traded instruments, quoted prices that are not current, or principal market information that is not released publicly
- Inputs that are observable such as interest rates and yield curves, prepayment speeds, credit risks, and default rates
- Inputs derived principally from or corroborated by observable market data by correlation or other means

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. These unobservable inputs reflect the reporting entity's own judgments about assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board (FASB) and have determined the following standards to be applicable to our business. While we are a nonpublic entity, our financial results are closely related to the performance of the combined Farm Credit System. Therefore, we typically adopt accounting pronouncements in alignment with other System institutions.

Standard and effective date	Description	Adoption status and financial statement impact
In March 2020, the FASB issued guidance, Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The optional amendments are effective for all entities as of March 12, 2020, through December 31, 2022.	The guidance provides optional expedients and exceptions for applying GAAP to contracts and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contract terms related to the replacement of the reference rate.	We are currently evaluating the impact of this guidance on our financial condition, results of operations, cash flows, and financial statement disclosures.
In June 2016, the FASB issued Accounting Standards Update (ASU) 2016-13 "Financial Instruments - Credit Losses." The guidance was originally effective for non-U.S. Securities Exchange Commission filers for our first quarter of 2021. In November 2019, the FASB issued ASU 2019-10 which amends the mandatory effective date for this guidance for certain institutions. We have determined we qualify for the deferral of the mandatory effective date. As a result of the change, the standard is effective for our first quarter of 2023 and early adoption is permitted.	The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses.	We expect to adopt the standard as of January 1, 2023. We are currently assessing the impact this guidance will have on our financial statements upon adoption, which will be impacted by the composition of our portfolio and asset quality at the adoption date, as well as economic conditions and forecasts at the time of adoption. We have reviewed the accounting standard, selected and substantially completed development and testing of our system, and are in the process of drafting disclosures. Significant implementation matters yet to be addressed include drafting of accounting policies and designing processes and controls. We are currently unable to estimate the impact on our financial statements.

NOTE 3: LOANS AND ALLOWANCE FOR LOAN LOSSES

Loans by Type

(dollars in thousands)

As of December 31	2020		2019		2018	
	Amount	%	Amount	%	Amount	%
Real estate mortgage	\$ 454,514	34.0%	\$ 444,518	34.9%	\$ 451,240	36.9%
Production and intermediate-term	429,356	32.1%	438,568	34.4%	446,655	36.5%
Agribusiness	300,735	22.5%	259,231	20.4%	210,984	17.3%
Other	151,636	11.4%	130,695	10.3%	113,662	9.3%
Total	\$ 1,336,241	100.0%	\$ 1,273,012	100.0%	\$ 1,222,541	100.0%

The other category is primarily composed of rural infrastructure related loans.

Portfolio Concentrations

Concentrations exist when there are amounts loaned to multiple borrowers engaged in similar activities, which could cause them to be similarly impacted by economic conditions. We lend primarily within agricultural industries.

As of December 31, 2020, volume plus commitments to our ten largest borrowers totaled an amount equal to 5.7% of total loans and commitments.

Total loans plus any unfunded commitments represent a proportionate maximum potential credit risk. However, substantial portions of our lending activities are collateralized. Accordingly, the credit risk associated with lending activities is less than the recorded loan principal. The amount of collateral obtained, if deemed necessary upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held varies, but may include real estate, equipment, inventory, livestock, and income-producing property. Long-term real estate loans are secured by the first liens on the underlying real property.

Participations

We may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, or comply with the limitations of the FCA Regulations or General Financing Agreement (GFA) with AgriBank.

Information in the preceding chart excludes loans entered into under our leasing authority.

Credit Quality and Delinquency

We utilize the FCA Uniform Classification System to categorize loans into five credit quality categories. The categories are:

- Acceptable – loans are non-criticized loans representing the highest quality. They are expected to be fully collectible. This category is further differentiated into various probabilities of default.
- Other assets especially mentioned (Special Mention) – loans are currently collectible but exhibit some potential weakness. These loans involve increased credit risk, but not to the point of justifying a substandard classification.
- Substandard – loans exhibit some serious weakness in repayment capacity, equity, and/or collateral pledged on the loan.
- Doubtful – loans exhibit similar weaknesses as substandard loans. Doubtful loans have additional weaknesses in existing factors, conditions, and values that make collection in full highly questionable.
- Loss – loans are considered uncollectible.

We had no loans categorized as loss at December 31, 2020, 2019, or 2018.

Note: Accruing loans include accrued interest receivable.

All loans 90 days or more past due and still accruing interest were adequately secured and in the process of collection and, as such, were eligible to remain in accruing status.

Risk Loans

Risk loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms. Interest income recognized and cash payments received on nonaccrual risk loans are applied as described in Note 2.

¹The recorded investment is the unpaid principal amount of the receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, and acquisition costs and may also reflect a previous direct charge-off of the investment.

²Unpaid principal balance represents the contractual principal balance of the loan.

We had no commitments to lend additional money to borrowers whose loans were classified as risk loans at December 31, 2020.

Troubled Debt Restructurings (TDRs)

Included within our loans are TDRs. These loans have been modified by granting a concession in order to maximize the collection of amounts due when a borrower is experiencing financial difficulties. All risk loans, including TDRs, are analyzed within our allowance for loan losses.

There were no TDRs that occurred during the years ended December 31, 2020 and 2019.

We completed TDRs of certain production and intermediate-term loans during the year ended December 31, 2018. Our recorded investment in these loans just prior to and immediately following restructuring was \$30 thousand during the year ended December 31, 2018. The recorded investment is the unpaid principal amount of the receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, and acquisition costs and may also reflect a previous direct charge-off of the investment.

The primary type of modification included extension of maturity.

There were no TDRs that defaulted during the years ended December 31, 2020 and 2019. We had TDRs in the production and intermediate-term loan category of \$4 thousand that defaulted during the year ended December 31, 2018, in which the modifications were within twelve months of the respective reporting period.

TDRs outstanding in the real estate mortgage loan category totaled \$362 thousand, \$385 thousand, and \$403 thousand, all of which were in accrual status at December 31, 2020, 2019, and 2018, respectively.

There were no commitments to lend to borrowers whose loans have been modified in a TDR at December 31, 2020.

The recorded investment is the unpaid principal amount of the receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, and acquisition costs and may also reflect a previous direct charge-off of the investment.

NOTE 4: INVESTMENT IN AGRIBANK

As of December 31, 2020, we were required by AgriBank to maintain an investment equal to 2.5% of the average quarterly balance of our note payable, with an additional amount required on association growth in excess of a targeted growth rate, if the District is also growing above a targeted growth rate.

We are also required to hold AgriBank stock related to our participation in a pool program. The required investment amount varies by pool program and is generally a percentage of the loan balance in the pool.

AgriBank's capital plan provides for annual retirement of AgriBank stock and optimizes capital at the Bank by distributing all available Bank earnings in the form of patronage, either in cash or stock. The plan is designed to maintain capital adequacy such that sufficient earnings will be retained in the form of allocated retained earnings and allocated stock to meet the leverage ratio target and other regulatory or policy constraints prior to any cash patronage distributions.

NOTE 5: NOTE PAYABLE TO AGRIBANK

Our note payable to AgriBank represents borrowings, in the form of a line of credit, to fund our loan portfolio. The line of credit is governed by a GFA and substantially all of our assets serve as collateral.

Note Payable Information

(dollars in thousands)

As of December 31	2020	2019	2018
Line of credit	\$ 1,600,000	\$ 1,600,000	\$ 1,600,000
Outstanding principal under the line of credit	1,050,999	1,017,166	979,366
Interest rate	0.8%	2.3%	2.7%

Our note payable is scheduled to mature on September 30, 2022. We intend to renegotiate the note payable no later than the maturity date.

The GFA provides for limitations on our ability to borrow funds based on specified factors or formulas relating primarily to outstanding balances, credit quality, and financial condition. Additionally, we have requirements to maintain an effective program of internal controls over financial reporting. At December 31, 2020, and throughout the year, we were not declared in default under any GFA covenants or provisions.

NOTE 6: PREMISES AND EQUIPMENT, NET

Premises and Equipment

(in thousands)

As of December 31	2020	2019	2018
Land, buildings, and improvements	\$ 20,331	\$ 19,063	\$ 12,207

Premises and equipment, net	\$ 18,775	\$ 17,669	\$ 9,583

The change in premises and equipment, net is primarily due to the purchase of our Corporate Headquarters/Minot Branch office in 2019.

NOTE 7: MEMBERS' EQUITY

Capitalization Requirements

In accordance with the Farm Credit Act, each borrower is required to invest in us as a condition of obtaining a loan. As authorized by the Agricultural Credit Act and our capital bylaws, the Board of Directors has adopted a capital plan that establishes a stock purchase requirement for obtaining a loan of 2.0% of the customer's total loan(s) or one thousand dollars, whichever is less. The purchase of one participation certificate is required of all customers to whom a lease is issued, if not already a stockholder, and of all non-stockholder customers who purchase financial services. The Board of Directors may increase the amount of required investment to the extent authorized in the capital bylaws. The borrower acquires ownership of the capital stock at the time the loan or lease is made. The aggregate par value of the stock is added to the principal amount of the related obligation. We retain a first lien on the stock or participation certificates owned by customers.

Regulatory Capitalization Requirements

Regulatory Capital Requirements and Ratios

As of December 31	2020	2019	2018	Regulatory Minimums	Capital Conservation Buffer	Total
Risk-adjusted:						
Common equity tier 1 ratio	20.5%	19.8%	18.6%	4.5%	2.5%	7.0%
Tier 1 capital ratio	20.5%	19.8%	18.6%	6.0%	2.5%	8.5%
Total capital ratio	20.7%	20.1%	18.9%	8.0%	2.5%	10.5%
Permanent capital ratio	20.5%	19.8%	18.6%	7.0%	N/A	7.0%
Non-risk-adjusted:						
Tier 1 leverage ratio	23.0%	21.7%	20.6%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	24.0%	22.8%	21.3%	1.5%	N/A	1.5%

Risk-adjusted assets have been defined by the FCA Regulations as the Statement of Condition assets and off-balance-sheet commitments adjusted by various percentages, depending on the level of risk inherent in the various types of assets.

Risk-adjusted assets is calculated differently for the permanent capital ratio (referred herein as PCR risk-adjusted assets) compared to the other risk-based capital ratios. The primary difference is the inclusion of the allowance for loan losses as a deduction to risk-adjusted assets for the permanent capital ratio.

These ratios are based on a three-month average daily balance in accordance with the FCA Regulations and are calculated as follows (not all items below may be applicable to our Association):

- Common equity tier 1 ratio is statutory minimum purchased member stock, other required member stock held for a minimum of 7 years, allocated equities held for a minimum of 7 years or not subject to retirement, unallocated retained earnings as regulatorily prescribed, paid-in capital, less certain regulatory required deductions including the amount of allocated investments in other System institutions, and the amount of purchased investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Tier 1 capital ratio is common equity tier 1 plus non-cumulative perpetual preferred stock, divided by average risk-adjusted assets.
- Total capital is tier 1 capital plus other required member stock held for a minimum of 5 years, allocated equities held for a minimum of 5 years, subordinated debt, and limited-life preferred stock greater than 5 years to maturity at issuance subject to certain limitations, allowance for loan losses and reserve for credit losses subject to certain limitations, less certain investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Permanent capital ratio is all at-risk borrower stock, any allocated excess stock, unallocated retained earnings as regulatorily prescribed, paid-in capital, subordinated debt, and preferred stock subject to certain limitations, less certain allocated and purchased investments in other System institutions divided by PCR risk-adjusted assets.
- Tier 1 leverage ratio is tier 1 capital, including regulatory deductions, divided by average assets less regulatory deductions subject to tier 1 capital.
- Unallocated retained earnings and equivalents leverage ratio is unallocated retained earnings as regulatorily prescribed, paid-in capital, allocated surplus not subject to retirement less certain regulatory required deductions including the amount of allocated investments in other System institutions divided by average assets less regulatory deductions subject to tier 1 capital.

If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

Description of Equities

The following represents information regarding classes and number of shares of stock and participation certificates outstanding. All shares and participation certificates are stated at a \$5.00 par value.

As of December 31	Number of Shares		
	2020	2019	2018
Class B common stock (at-risk)	369,275	377,795	392,713
Class E participation certificates (at-risk)	1,711	825	829

Under our bylaws, we are also authorized to issue Class C and Class D common stock. Each of these classes of common stock is at-risk and nonvoting with a \$5.00 par value per share. Currently, no stock of these classes has been issued.

Only holders of Class B common stock have voting rights. Our bylaws do not prohibit us from paying dividends on any classes of stock. However, no dividends have been declared to date.

Our bylaws generally permit stock and participation certificates to be retired at the discretion of our Board of Directors and in accordance with our capitalization plans, provided prescribed capital standards have been met. At December 31, 2020, we exceeded the prescribed standards. We do not anticipate any significant changes in capital that would affect the normal retirement of stock.

In the event of our liquidation or dissolution, according to our bylaws, any remaining assets after payment or retirement of all liabilities will be distributed pro rata to holders of Class B, C, and D common stock and Class E participation certificates.

In the event of stock impairment, losses will be absorbed by concurrent impairment of all classes of stock.

All classes of stock are transferable to other customers who are eligible to hold such class as long as we meet the regulatory minimum capital requirements.

Patronage Distributions

We accrued patronage distributions of \$4.3 million at December 31, 2020. No patronage distributions were accrued as of December 31, 2019 or 2018. Generally, patronage distributions are paid in cash during the first quarter after year end. The Board of Directors may authorize a distribution of earnings provided we meet all statutory and regulatory requirements. If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

Deferred Income Taxes

Tax laws require certain items to be included in our tax returns at different times than the items are reflected on our Consolidated Statements of Comprehensive Income. Some of these items are temporary differences that will reverse over time. We record the tax effect of temporary differences as deferred tax assets and liabilities netted on our Consolidated Statements of Condition.

Deferred Tax Assets and Liabilities

A valuation allowance for the deferred tax assets was not necessary at December 31, 2020, 2019, or 2018.

We have not provided for deferred income taxes on patronage allocations received from AgriBank prior to 1993. Such allocations, distributed in the form of stock, are subject to tax only upon conversion to cash. Our intent is to permanently maintain this investment in AgriBank. Additionally, we have not provided deferred income taxes on accumulated FLCA earnings of \$262.1 million as it is our intent to permanently maintain this equity in the FLCA or to distribute the earnings to members in a manner that results in no additional tax liability to us.

Our income tax returns are subject to review by various United States taxing authorities. We record accruals for items that we believe may be challenged by these taxing authorities. However, we had no uncertain income tax positions at December 31, 2020. In addition, we believe we are no longer subject to income tax examinations for years prior to 2017.

NOTE 9: EMPLOYEE BENEFIT PLANS**Pension and Post-Employment Benefit Plans**

Complete financial information for the pension and post-employment benefit plans may be found in the AgriBank 2020 Annual Report.

The Farm Credit Foundations Plan Sponsor and Trust Committees provide oversight of the benefit plans. These governance committees are comprised of elected or appointed representatives (senior leadership and/or Board of Director members) from the participating organizations. The Plan Sponsor Committee is responsible for employer decisions regarding all benefit plans including retirement benefits. These decisions could include plan design changes, vendor changes, determination of employer subsidies (if any), and termination of specific benefit plans. Any action to change or terminate the retirement plan can only occur at the direction of the AgriBank District participating employers. The Trust Committee is responsible for fiduciary and plan administrative functions.

Pension Plan: Certain employees participate in the AgriBank District Retirement Plan, a District-wide multi-employer defined benefit retirement plan. The Department of Labor has determined the plan to be a governmental plan; therefore, the plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As the plan is not subject to ERISA, the plan's benefits are not insured by the Pension Benefit Guaranty Corporation. Accordingly, the amount of accumulated benefits that participants would receive in the event of the plan's termination is contingent on the sufficiency of the plan's net assets to provide benefits at that time. This plan is noncontributory and covers certain eligible District employees. The assets, liabilities, and costs of the plan are not segregated by participating entities. As such, plan assets are available for any of the

participating employers' retirees at any point in time. Additionally, if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers. Further, if we choose to stop participating in the plan, we may be required to pay an amount based on the underfunded status of the plan. Because of the nature of the plan, any individual employer is not able to unilaterally change the provisions of the plan. If an employee transfers to another employer within the same plan, the employee benefits under the plan transfer. Benefits are based on salary and years of service. There is no collective bargaining agreement in place as part of this plan.

AgriBank District Retirement Plan Information

(in thousands)

As of December 31	2020	2019	2018
Unfunded liability	\$ 169,640	\$ 220,794	\$ 274,450
Projected benefit obligation	1,563,421	1,421,126	1,272,063
Fair value of plan assets	1,393,781	1,200,332	997,613
Accumulated benefit obligation	1,426,270	1,298,942	1,125,682
For the year ended December 31	2020	2019	2018
Total plan expense	\$ 42,785	\$ 36,636	\$ 51,900
Our allocated share of plan expenses	747	685	926
Contributions by participating employers	90,000	90,000	90,000
Our allocated share of contributions	1,811	1,910	1,840

The unfunded liability reflects the net of the fair value of the plan assets and the projected benefit obligation at the date of these Consolidated Financial Statements. The projected benefit obligation is the actuarial present value of all benefits attributed by the pension benefit formula to employee service rendered prior to the measurement date based on assumed future compensation levels. The accumulated benefit obligation is the actuarial present value of the benefits attributed to employee service rendered before the measurement date and based on current employee service and compensation. The funding status is subject to many variables including performance of plan assets and interest rate levels. Therefore, changes in assumptions could significantly affect these estimates.

Costs are determined for each individual employer based on costs directly related to their current employees as well as an allocation of the remaining costs based proportionately on the estimated projected liability of the employer under this plan. We recognize our proportional share of expense and contribute a proportional share of funding. Our allocated share of plan expenses is included in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income.

Benefits paid to participants in the District were \$70.9 million in 2020. While the plan is a governmental plan and is not subject to minimum funding requirements, the employers contribute amounts necessary on an actuarial basis to provide the plan with sufficient assets to meet the benefits to be paid to participants. The amount of the total District employer contributions expected to be paid into the pension plan during 2021 is \$90.0 million. Our allocated share of these pension contributions is expected to be \$1.8 million. The amount ultimately to be contributed and the amount ultimately recognized as expense as well as the timing of those contributions and expenses, are subject to many variables including performance of plan assets and interest rate levels. These variables could result in actual contributions and expenses being greater than or less than the amounts reflected in the District financial statements.

Nonqualified Retirement Plan: We also participate in the District-wide nonqualified defined benefit Pension Restoration Plan. This plan restores retirement benefits to certain highly compensated eligible employees that would have been provided under the qualified plan if such benefits were not above certain Internal Revenue Code limits.

Pension Restoration Plan Information

(in thousands)

As of December 31	2020	2019	2018
Our unfunded liability	\$ 1,188	\$ 1,345	\$ 761
For the year ended December 31	2020	2019	2018
Our allocated share of plan expenses	\$ 85	\$ 216	\$ 204
Our cash contributions	240	--	--

The nonqualified plan is funded as the benefits are paid; therefore, there are no assets in the plan and the unfunded liability is equal to the projected benefit obligation. The amount of the pension benefits funding status is subject to many variables including interest rate levels. Therefore, changes in assumptions could significantly affect these estimates.

Costs are determined for each individual employer based on costs directly related to their participants in the plan. Our allocated share of the components of net periodic benefit cost other than the service cost component, are included in "Other operating expense" in the Consolidated Statements of Comprehensive Income. Service costs related to the plan are included in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income. The Pension Restoration Plan is unfunded and we make annual contributions to fund benefits paid to our retirees covered by the plan. Our cash contributions are equal to the benefits paid. There were no benefits paid under the Pension Restoration Plan to our senior officers who were actively employed during the year. We had no cash contributions and paid no benefits during 2019 and 2018.

Retiree Medical Plans: District employers also provide certain health insurance benefits to eligible retired employees according to the terms of the benefit plans. The anticipated costs of these benefits are accrued during the period of the employee's active status. Net periodic benefit cost is included in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income. Postretirement benefit costs related to the retiree medical plans were not considered material for any of the years presented. Our cash contributions were equal to the benefits paid.

Defined Contribution Plans

We participate in a District-wide defined contribution plan. For employees hired before January 1, 2007, employee contributions are matched dollar for dollar up to 2.0% and 50 cents on the dollar on the next 4.0% on both pre-tax and post-tax contributions. The maximum employer match is 4.0%. For employees hired after December 31, 2006, we contribute 3.0% of the employee's compensation and will match employee contributions dollar for dollar up to a maximum of 6.0% on both pre-tax and post-tax contributions. The maximum employer contribution is 9.0%.

We also participate in a District-wide Nonqualified Deferred Compensation Plan. Eligible participants must meet one of the following criteria: certain salary thresholds as determined by the IRS, are either a Chief Executive Officer or President of a participating employer, or have previously elected pre-tax deferrals in 2006 under predecessor nonqualified deferred compensation plans. Under this plan the employee may defer a portion of his/her salary, bonus, and other compensation. Additionally, the plan provides for supplemental employer matching contributions related to any compensation deferred by the employee that would have been eligible for a matching contribution under the defined contribution plan if it were not for certain IRS limitations.

Employer contribution expenses for the defined contribution plan, included in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income, were \$705 thousand, \$680 thousand, and \$619 thousand in 2020, 2019, and 2018, respectively. These expenses were equal to our cash contributions for each year.

NOTE 10: RELATED PARTY TRANSACTIONS

In the ordinary course of business, we may enter into loan transactions with our officers, directors, their immediate family members, and other organizations with which such persons may be associated. Such transactions may be subject to special approval requirements contained in the FCA Regulations and are made on the same terms, including interest rates, amortization schedules, and collateral, as those prevailing at the time for comparable transactions with other persons. In our opinion, none of these loans outstanding at December 31, 2020, involved more than a normal risk of collectability.

Related Party Loans Information

(in thousands)							
As of December 31		2020		2019		2018	
Total related party loans	\$	14,757	\$	14,248	\$	12,553	
For the year ended December 31		2020		2019		2018	
Advances to related parties	\$	13,226	\$	13,899	\$	14,753	
Repayments by related parties		11,967		15,524		15,038	

The related parties can be different each year end primarily due to changes in the composition of the Board of Directors and the mix of organizations with which such persons may be associated. Advances and repayments on loans in the preceding chart are related to those considered related parties at each respective year end.

As discussed in Note 5, we borrow from AgriBank, in the form of a line of credit, to fund our loan portfolio. All interest expense as shown on the Consolidated Statements of Comprehensive Income was paid to AgriBank.

Total patronage received from AgriBank was \$7.5 million, \$6.9 million, and \$5.5 million in 2020, 2019, and 2018, respectively. Patronage income for 2019 was paid in cash and AgriBank stock. Patronage income for 2020 and 2018 was paid in cash.

Refer to Note 3 for information on participations sold to AgriBank and Note 4 for stock investment in AgriBank information.

As of December 31, 2020, we purchased certain business services from AgriBank. Until the formation of SunStream Business Services (SunStream) on April 1, 2020, we also purchased financial and retail information technology, collateral, tax reporting, and insurance services from AgriBank. These services are now offered by SunStream. We also purchase human resource, benefit, payroll, and workforce management services from Farm Credit Foundations (Foundations). SunStream and Foundations are both System service corporations within the AgriBank District. In addition to the services we purchase from AgriBank, SunStream, and Foundations we also hold an investment in each of these institutions.

AgriBank District purchased services	\$	861	\$	778	\$	766	

NOTE 11: CONTINGENCIES AND COMMITMENTS

In the normal course of business, we have various contingent liabilities and commitments outstanding, which may not be reflected in the Consolidated Financial Statements. We do not anticipate any material losses because of these contingencies or commitments.

We may be named as a defendant in certain lawsuits or legal actions in the normal course of business. At the date of these Consolidated Financial Statements, our management team was not aware of any material actions. However, management cannot ensure that such actions or other contingencies will not arise in the future.

We have commitments to extend credit and letters of credit to satisfy the financing needs of our borrowers. These financial instruments involve, to varying degrees, elements of credit risk that may be recognized in the financial statements. Commitments to extend credit are agreements to lend to a borrower as long as there is not a violation of any condition established in the loan contract. Standby letters of credit are agreements to pay a beneficiary if there is a default on a contractual arrangement. At December 31, 2020, we had commitments to extend credit and unexercised commitments related to standby letters of credit of \$440.1 million. Additionally, we had \$7.9 million of issued standby letters of credit as of December 31, 2020.

Commitments to extend credit and letters of credit generally have fixed expiration dates or other termination clauses and we may require payment of a fee. If commitments to extend credit and letters of credit remain unfulfilled or have not expired, they may have credit risk not recognized in the financial statements. Many of the commitments to extend credit and letters of credit will expire without being fully drawn upon. Therefore, the total commitments do not necessarily represent future cash requirements. Certain letters of credit may have recourse provisions that would enable us to recover from third parties amounts paid under guarantees, thereby limiting our maximum potential exposure. The credit risk involved in issuing these financial instruments is essentially the same as that involved in extending loans to borrowers and we apply the same credit policies. The amount of collateral obtained, if deemed necessary by us upon extension of credit, is based on management's credit evaluation of the borrower.

NOTE 12: FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Accounting guidance also establishes a fair value hierarchy, with three input levels that may be used to measure fair value. Refer to Note 2 for a more complete description of the three input levels.

We did not have any assets or liabilities measured at fair value on a recurring basis at December 31, 2020, 2019, or 2018.

Non-Recurring

We may be required, from time to time, to measure certain assets at fair value on a non-recurring basis.

Assets Measured at Fair Value on a Non-Recurring Basis

(in thousands)

As of December 31, 2020	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Impaired loans	\$ --	\$ --	\$ 2,153	\$ 2,153
As of December 31, 2019				
As of December 31, 2019	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Impaired loans	\$ --	\$ --	\$ 2,755	\$ 2,755
As of December 31, 2018				
As of December 31, 2018	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Impaired loans	\$ --	\$ --	\$ 3,445	\$ 3,445

Valuation Techniques

Impaired Loans: Represents the carrying amount of loans which were evaluated for individual impairment based on the appraised value of the underlying collateral. When the value of the collateral, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. If the process uses observable market-based information, they are classified as Level 2. If the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters, they are classified as Level 3.

NOTE 13: SUBSEQUENT EVENTS

We have evaluated subsequent events through March 3, 2021, which is the date the Consolidated Financial Statements were available to be issued. There have been no material subsequent events that would require recognition in our 2020 Consolidated Financial Statements or disclosure in the Notes to Consolidated Financial Statements.

Additional transactions other than loans in the ordinary course of business involving directors and senior officers include competitive bidding for improvements to new and existing facilities. Through this competitive bidding process, during the years of 2020, 2019, and 2018, we have entered into transactions with Lowe's, Inc. (Lowe's), a garden center, greenhouse nursery, and floral and landscaping operation. Outside Director, Phil Lowe is the president of Lowe's.

Pursuant to our bylaws, directors are paid a reasonable amount for attendance at board meetings, committee meetings, or other special assignments. Directors are also reimbursed for reasonable expenses incurred in connection with such meetings or assignments. The Board of Directors receives \$600 per diem for each meeting in attendance or \$100 for meeting attendance by conference call. In addition, the board chairperson receives a \$3,000 annual retainer fee and the other board members receive a \$2,000 annual retainer fee paid following the Board of Director's annual reorganization meeting.

Information regarding compensation paid to each director who served during 2020 follows:

Name	Number of Days Served		Compensation Paid for Service on a Board Committee	Name of Committee	Total Compensation Paid in 2020
	Board Meetings	Other Official Activities			
Bryan Ankenbauer	12	12	\$ 1,700 600 600	Audit Planning Compensation	\$ 17,000

Brad Limke Senior Vice President - Chief Credit Officer	Business experience: Association Senior Vice President - Chief Credit Officer since September 2016 Association Director of Internal Audit from August 2005 to September 2016 Appointed as Senior Officer: September 2016

Gordon Hanson is a member of the board for AgCountry CFG (capital markets lending).

Senior Officer Compensation

Compensation Risk Management: We believe the design and governance of our CEO, senior officer, and highly compensated individuals compensation program is consistent with the highest standards of risk management and provides total compensation that promotes our mission to ensure a safe, sound, and dependable source of credit and related services for agriculture and rural America. Our compensation philosophy aims to provide a competitive total rewards package that will enable us to attract and retain highly qualified officers with the requisite expertise and skills while achieving desired business results aligned with the best interests of our members. The design of our CEO, senior officer, and highly compensated individuals compensation program supports our risk management goals through a set of checks and balances, including (1) a balanced mix of base and variable pay, (2) a balanced use of performance measures that are risk-adjusted where appropriate, and (3) a pay-for-performance process that allocates individual awards based on both results and how those results were achieved.

Elements of Compensation: The CEO, senior officer, and highly compensated individuals are compensated with a mix of direct cash and short-term incentives as well as retirement plans generally available to all employees. Our Board of Directors approves the overall salary structure for all senior officers, including the CEO and highly compensated individuals which includes the variable compensation plan targeting various objectives throughout the year keeping in mind their fiduciary responsibilities to our members. Base salary and short-term incentives are intended to be competitive with annual compensation for comparable positions at peer organizations.

Base Salary: The CEO, senior officer, and highly compensated individuals base salaries reflect the employee's experience and level of responsibility. The salary structure is subject to review and approval by the Compensation Committee of our Board of Directors and are subject to adjustment based on changes in responsibilities or competitive market conditions.

Short-term Incentives: The CEO, senior officer, and highly compensated individuals incentives are paid annually based on performance criteria established by our Board of Directors. The criteria related to the overall association performance includes loan volume, credit quality, credit administration, net operating rate, net interest margin, and related services income. Additionally, performance criteria related to personal performance includes attainment of personal objectives and performance ratings. We calculate the incentives after the end of the plan year (the plan year is the calendar year). Employees must be employed on March 20 of the following year, to collect incentive pay.

Retirement Plans: We have various post-employment benefit plans which are generally available to all Association employees, including the CEO, senior officers, and highly compensated individuals, based on dates of service to the Association and are not otherwise differentiated by position, unless specifically stated. Information regarding the post-employment benefit plans is included in Notes 2 and 9 to the Consolidated Financial Statements in this Annual Report.

Other Components of Compensation: Additionally, compensation associated with, group term life insurance premiums, disability insurance premiums, or other taxable reimbursements may be made available to the CEO, senior officers, and highly compensated individuals based on job criteria or similar plans available to all employees.

Compensation to the CEO, Senior Officers, and Highly Compensated Individuals

(in thousands)								
Name	Year	Salary	Bonus	Deferred/ Perquisites	Other	Total		
Gordon Hanson, CEO	2020	\$ 364	\$ 137	\$ 3	\$ 141	\$ 645		
Gordon Hanson, CEO	2019	204	75	52	143	474		
Claude Sem, CEO	2019	202	80	2	2,097	2,381		
Claude Sem, CEO	2018	370	148	4	188	710		
Aggregate Number of Senior Officers and Highly Compensated Individuals, excluding CEO								
Seven	2020	\$ 911	\$ 240	\$ 10	\$ 687	\$ 1,848		
Seven	2019	1,037	334	7	896	2,274		
Eight	2018	1,099	301	8	351	1,759		

Members may request information on the compensation to the individuals included in the preceding table during 2020.

The composition of senior officers may change during the year based on business needs of the Association. In February 2020 a senior officer resigned and in April a new senior officer was hired. During 2019, the CEO retired in July. During 2018, one senior officer retired in November. The amounts above reflect compensation earned during the time employees served as senior officers. The composition of the senior officers and highly compensated individuals can change due to base salary or other incentives available to employees as described above.

The amount in the "Other" category in the preceding table primarily includes:

- Employer match on defined contribution plans available to all employees.
- Changes in the value of pension benefits. The change in value of the pension benefits is defined as the change in the vested portion of the present value of the accumulated benefit obligation from December 31 of the prior year to December 31 of the most recent year for the District-wide Pension Plan and the Pension Restoration Plan, as applicable, as disclosed in Note 9 to the Consolidated Financial Statements in this Annual Report. Most notably Claude Sem's pension value increased \$2.1 million in 2019. This change in value does not represent cash payments made by the Association during the year, but rather is an estimate of the change in the Association's future obligations under the pension plans. The change in the value of the pension benefits is highly sensitive to discount rates used to value the plan liabilities to participants.
- Amounts paid related to vacation payouts to former senior officers in 2020, 2019, and 2018.
- Amounts related to sign-on bonuses in 2020 and 2019, designed to offset other lost incentive compensation.

Any dollar value of tax reimbursement provided to the CEO, senior officers, and highly compensated individuals is included in the column for which the reimbursement was provided.

The "Deferred/Perquisites" primarily includes group-term life insurance premiums, long-term disability premiums, and relocation bonuses.

The value of the pension benefits increased from December 31, 2019, to December 31, 2020, primarily due to the decrease in interest rates year over year. The value of the pension benefits was also impacted to a lesser extent by the accumulation of an additional year of credited service by plan participants and updates to actuarial assumptions.

Pension Benefits Attributable to Senior Officers

(dollars in thousands)				
Name	Plan	Years of Credited Service	Present Value of Accumulated Benefits	Payments Made During the Reporting Period
Aggregate Number of Senior Officers, excluding CEO				
Five	AgriBank District Retirement Plan	27.2	\$ 3,992	\$ --

Senior officers in the above table includes those who resigned during the year.

The change in composition of the aggregate senior officers can have a significant impact on the calculation of the accumulated pension benefits.

Effective January 1, 2007, the AgriBank District Retirement Plan was closed to new employees. Therefore, any employee starting employment with the AgriBank District after that date is not eligible to be in the plan.

Transactions with Senior Officers and Directors

Information regarding related party transactions is discussed in Note 10 to the Consolidated Financial Statements in this Annual Report.

Travel, Subsistence, and Other Related Expenses

Directors and senior officers are reimbursed for reasonable travel, subsistence, and other related expenses associated with business functions. A copy of our policy for reimbursing these costs is available by contacting us at:

The total directors' travel, subsistence, and other related expenses were \$64 thousand, \$125 thousand, and \$120 thousand in 2020, 2019, and 2018, respectively.

Involvement in Certain Legal Proceedings

No events occurred during the past five years that are material to evaluating the ability or integrity of any person who served as a director or senior officer on January 1, 2021, or at any time during 2020.

Member Privacy

The FCA Regulations protect members' nonpublic personal financial information. Our directors and employees are restricted from disclosing information about our Association or our members not normally contained in published reports or press releases.

Relationship with Qualified Public Accountant

There were no changes in independent auditors since the last Annual Report to members and we are in agreement with the opinion expressed by the independent auditors. The total financial statement audit fees paid during 2020 were \$62 thousand. Our engagement letter commits to reimbursing the external auditor for reasonable out-of-pocket expenses as incurred for travel.

Financial Statements

The Report of Management, Report on Internal Control over Financial Reporting, Report of Audit Committee, Report of Independent Auditors, Consolidated Financial Statements, and Notes to Consolidated Financial Statements are presented prior to this portion of the Consolidated Financial Statements in this Annual Report.

Young, Beginning, and Small Farmers and Ranchers

Information regarding credit and services to young, beginning, and small farmers and ranchers, and producers or harvesters of aquatic products is discussed in an addendum to this Annual Report.

YOUNG, BEGINNING, AND SMALL FARMERS AND RANCHERS

Farm Credit Services of North Dakota, ACA

(Unaudited)

We have specific programs in place to serve the credit and related needs of young, beginning, and small farmers and ranchers (YBS) in our territory. The definitions of YBS as developed by the Farm Credit Administration (FCA) follow:

- Young: A farmer, rancher, or producer or harvester of aquatic products who is age 35 or younger as of the loan transaction date.
- Beginning: A farmer, rancher, or producer or harvester of aquatic products who has 10 years or less farming or ranching experience as of the loan transaction date.
- Small: A farmer, rancher, or producer or harvester of aquatic products who normally generates less than \$250 thousand in annual gross sales of agricultural or aquatic products.

The demographics of the young, beginning, and small farmers in our territory were compiled from the 2017 USDA Ag-Census. At the time of the census there were a total of 8,235 farmers in Farm Credit Services of North Dakota, ACA's territory. This included 1,164 young farmers, 1,753 beginning farmers, and 5,712 small farmers in our territory.

Our mission statement for the Young, Beginning, and Small Farmers Program is "to assist young, beginning, and small farmers and ranchers to succeed in business in their agricultural environment." The specific means to meet the objective of this mission statement follows:

- Our volume goal for young farmers is \$442.7 million which is 140% of risk funds. At December 31, 2020, we had \$192.8 million in loans to young farmers which was 61% of risk funds.
- Our volume goal for beginning farmers is \$395.3 million which is 125% of risk funds. At December 31, 2020, we had \$193.7 million in loans to beginning farmers which was 61% of risk funds.
- Our volume goal for small farmers is \$322.8 million which is the available debt per the 2017 census. This is less than the 400% parameter of risk funds. At December 31, 2020, we had \$145.2 million in loan volume to small farmers which was 46% of risk funds.
- Our goal for the number of loans is 1,340 of loans to young farmers, 1,320 of loans to beginning farmers, and 2,025 of loans to small farmers. At December 31, 2020, we had 1,070 loans to young farmers, 1,118 loans to beginning farmers, and 1,597 loans to small farmers.

We also have the opportunity to coordinate with the Bank of North Dakota and the Farm Service Agency in originating new loans. Our goal through coordinating with these two entities was to make 10 new loans to young farmers for \$500 thousand in loan volume, 10 new loans to beginning farmers for \$500 thousand in loan volume, and 25 new loans to small farmers for \$1.3 million in loan volume. With this coordination effort in 2020, we made 7 loans to young farmers for \$1.4 million, 7 loans to beginning farmers for \$1.4 million and 7 loans for \$1.8 million to small farmers.

We also provide related services to this segment of our portfolio with a goal of continued growth equal to or greater than what our overall related services are growing. To date, the number of farmers served with certain services includes:

	Young	Beginning	Small
Hail Insurance	126	113	107
Multi-Peril Insurance	140	140	170
Life Insurance	80	79	78

We also have a plan for marketing and outreach activities for this segment of our territory. We had goals of distributing 1,355 FFA handbooks to 38 schools and actually gave 1,012 handbooks to 38 schools. Our goal was to attend 6 FFA banquets and 0 were attended. We planned to attend 6 FFA Alumni Meetings and 4 were attended. We had a goal of attending 12 4-H premium sales with 13 attended. We have participated with the other Farm Credit System associations in North Dakota in granting 4 innovative grants for a total of approximately \$4 thousand. We planned for and awarded six \$1 thousand scholarships to sons and daughters of the agriculture community. We had planned presentations to 5 agriculture classes with 0 completed. We had a goal of attending 5 Adult Farm Management events with 0 attended. We had a goal to hold 18 insurance meetings and 19 were completed. Our goal was to participate in 8 agriculture shows with 8 completed. We had a goal of 10 direct mailings to young, beginning, and small farmers in our area with 6 completed. We had a goal of staff to attend 100 key community agriculture events in our territory and 175 were attended. We also had a goal to participate in 3 kid's farm safety events with 0 completed.

Our website has a page dedicated to our Young, Beginning, and Small Farmers Program along with information sent in our customer magazine targeted at the young, beginning, and small farmers segment of our territory.

Our specifically designed credit programs and services for young, beginning, and small farmers include underwriting standards and use of guarantees or other credit enhancements to ensure the program is conducted in a manner that protects the safety and soundness of Farm Credit Service of North Dakota, ACA.

FUNDS HELD PROGRAM

Farm Credit Services of North Dakota, ACA
(Unaudited)

Objective

To allow members the opportunity to deposit funds in excess of regular loan payments in a funds held account.

Maximum Deposit Balance

The funds held balance may not exceed the unpaid principal balance of the outstanding balance on the related loan.

Loans with Prepayment Penalties (Mortgage or Commercial): On loans with prepayment penalties, the maximum allowed funds held on that particular loan is limited to 10% of the original commitment or the limits as set forth above, whichever is the lesser amount.

Interest Rate

The funds held interest rate will be the AgriBank Money Market Investment Bond Rate. The association will not exceed the rate charged on the related loan at any time.

Deposits

Deposits may be made at any time. Money received after the billing of a scheduled payment (generally 30 days), but prior to a payment due date will be applied directly to the billed payment and will not earn interest. In all other cases, money deposited into funds held will earn interest from the day deposited until the day withdrawn.

Withdrawals

Money in a funds held account may be available to be returned to Borrowers, upon request, for an eligible loan purpose in lieu of increasing the Borrower's loan. It is recommended that no more than twelve withdrawals per year are allowed per Borrower/entity from the funds held account.

Management has the authority to apply limitations to withdrawals or decline withdrawal requests if it adversely affects the credit.

Rate Changes

Farm Credit Administration Regulations do not require disclosure when funds held rates change. Customers will be notified of funds held rate changes via the statement of account.

Uninsured Account

Funds held is not a depository account and is not insured by an agency of the federal government. In the event of Association liquidation, customers having balances in funds held shall be notified according to Farm Credit Administration Regulations.
